

United Nurses and Allied Professionals

Good News!!!

Today, September 5th, your union filed for an election for technical and professional staff at Fatima Hospital. Thanks to the terrific work of union supporters, the election petition is supported by a large majority of employees in both groups.

Next, the national Labor Relations Board will contact the union and the hospital to work out the details of the election such as voter eligibility lists, times and date of the election, and location of the voting.

It's about time that all of Fatima's employees enjoy the benefits of union membership including competitive wages and regular wage increases. Fatima employees already in the union are in full support and look forward to you joining them.
