

Save Our Hospital

Where Are Our legislative Leaders When They are Needed Most??

Kent Hospital needs state funding to help stabilize its finances after heavy losses incurred during the Covid-19 pandemic. Most recently, for profit hospitals in our state closed their ED so they could make more money from their surgical services. Kent Hospital kept its ED open. Now Kent needs help from the state.

But our legislative leaders from the Kent service area have made no commitment and no response to requests for ARPA funds. Speaker Shekarchi and Senate Majority Leader McCaffrey have remained silent on this issue.

Time Is Running Out

Legislators will be finishing the state budget in the coming weeks. We need to make our voices heard.

Kent Hospital Must Be Saved

Rally:

When: June 1st, 2:30- 5:00

Where: In Front of the Hospital
